

Argo / NVS / OceanOps series of meetings

People involved

BODC	Violetta Paba Clare Bellingham Roseanna Wright
OceanOps	Victor Turpin, Magali Kreiger
EuroArgo	Romain Cancouët

Objectives

Through this series of meetings, we aim to improve the cooperation between OceanOPS and NVS regarding the vocabulary collections.

We aim to improve the management of unconstrained fields in the context of Argo.

We aim to align OceanOPS vocabs with Argo collections managed on the NVS.

Meetings frequency

We will meet once a month during the first semester of 2022 to discuss a number of vocabularies listed below.
